

NetSentinel AI

Complete Network Security & Compliance Report

AI-Powered Vendor-Agnostic Network Security Compliance Engine

1. Executive Summary

Property	Result
Configuration File	cisco_router.txt
Detected Vendor	Cisco
Selected Framework	CIS
Security Score	14%
Compliance	25%
Overall Status	CRITICAL
Risk Level	CRITICAL
Risk Score	100

2. Device Identification

Property	Value
Vendor	Cisco
Hostname	SIH-Router-01
Model	None
Serial Number	None
Software Version	15.2
Memory	Not detected
Processor	Not detected
Interfaces	Not detected

3. Compliance Findings

Control	Rule	Status	Severity	Remediation
CIS-01	Use SSH Version 2	PASS	HIGH	Configure SSH version 2 and disable older SSH versions.

Control	Rule	Status	Severity	Remediation
CIS-02	Disable Telnet	FAIL	HIGH	Disable Telnet and use SSH for administrative access.
CIS-03	Disable Unsecured HTTP Management	UNKNOWN	HIGH	Disable HTTP management and use HTTPS.
CIS-04	Enable Logging	FAIL	MEDIUM	Enable system logging and configure appropriate log storage.
CIS-05	Avoid Plaintext Password	FAIL	CRITICAL	Replace plaintext passwords with secure credential mechanisms.
CIS-06	Enable AAA	UNKNOWN	HIGH	Enable AAA and configure appropriate authentication and authorization policies.
CIS-07	Secure Network Management	UNKNOWN	HIGH	Migrate network management to SNMPv3.

4. Cross-Framework Security Summary

Framework	Score	Compliance	Passed	Failed	Unknown	Risk
CIS	14%	25%	1	3	3	CRITICAL
NIST	0%	0%	0	2	4	HIGH
STIG	20%	25%	1	3	1	CRITICAL
ISO	22%	33%	1	2	2	HIGH

5. Risk Analysis

Risk Metric	Value
Risk Level	CRITICAL
Risk Score	100
Risk Points	21
Critical Findings	1
High Findings	1
Medium Findings	1
Low Findings	0
Failed Controls	3

6. Unknown Configuration Queue

ID	Command	Vendor	Status
UNKNOWN-001	hostname SIH-Router-01	Cisco	unmapped
UNKNOWN-002	version 15.2	Cisco	unmapped

7. Priority Remediation

Control	Rule	Severity	Recommended Remediation
CIS-05	Avoid Plaintext Password	CRITICAL	Replace plaintext passwords with secure credential mechanisms.
CIS-02	Disable Telnet	HIGH	Disable Telnet and use SSH for administrative access.
CIS-04	Enable Logging	MEDIUM	Enable system logging and configure appropriate log storage.

8. AI Learning Summary

Learning Metric	Value
Total Learned Mappings	1
Learned Patterns Used	1
