Network Security Compliance Assessment

Generated: 2026-09-07 23:36:32

1. Device Identification

Property	Value
Configuration File	cisco_router.txt
Vendor	Cisco
Hostname	SIH-Router-01
Model	Not detected
Serial Number	Not detected
Software Version	15.2

2. Compliance Summary

Metric	Result
Framework	CIS
Security Score	14%
Passed Controls	1
Failed Controls	3
Unknown Controls	3
Risk Level	CRITICAL
Risk Score	100

3. Compliance Findings

Control	Finding	Status	Severity
CIS-01	Use SSH Version 2	PASS	HIGH
CIS-02	Disable Telnet	FAIL	HIGH
CIS-03	Disable Unsecured HTTP Management	UNKNOWN	HIGH
CIS-04	Enable Logging	FAIL	MEDIUM
CIS-05	Avoid Plaintext Password	FAIL	CRITICAL
CIS-06	Enable AAA	UNKNOWN	HIGH
CIS-07	Secure Network Management	UNKNOWN	HIGH

4. Remediation Guidance

CIS-02 — Disable Telnet

Severity: HIGH

Remediation: Disable Telnet and use SSH for administrative access.

CIS-04 — Enable Logging

Severity: MEDIUM

Remediation: Enable system logging and configure appropriate log storage.

CIS-05 — Avoid Plaintext Password

Severity: CRITICAL

Remediation: Replace plaintext passwords with secure credential mechanisms.

5. Unknown Configuration / Learning Queue

These configuration elements were not recognized by the current normalization model and can be reviewed for administrator training.

ID	Configuration	Status
UNKNOWN-001	hostname SIH-Router-01	unmapped
UNKNOWN-002	version 15.2	unmapped

6. NetSentinel AI Learning

Learned mappings available: 0

Learned patterns used during analysis: 0
